

# David Gascoigne

CEO

## **Almaden Genomics**

David Gascoigne serves as CEO of Almaden Genomics, leveraging his general management expertise and strong background in integrative healthcare data analytics to drive Almaden's growth and operational strategy.

David is a life sciences veteran with three decades of leadership experience building businesses and teams to rapidly scale from initial launch to annual revenues of \$300M through a combination of inorganic and organic growth. Having led both commercial and operational strategy, he has successfully driven key M&A activities for company expansion, and as a prominent data analytics veteran, he has monetized complex and integrated data sets with technology, machine learning and predictive analytics for evidence-based solutions and outcomes.

David joins Almaden Genomics from Sutherland Global Services where he facilitated revenue growth as the Head of Healthcare Analytics and was responsible for the development and commercialization of high-value, innovative analytics solutions and services delivered on industry leading platforms. Prior to Sutherland, David was the Chief Operating Officer of GNS Healthcare, a global technology leader for causal AI and simulation across life sciences. Pioneering this new technology, David had responsibility for the development and commercialization of In Silico models through the convergence of multi-omic patient data, high performance computing, causal learning and AI to facilitate the discovery of novel therapies and accelerate R&D in rare diseases.

Prior to GNS, David drove growth as General Manager of Analytics Services for IQVIA, covering commercial, real-world evidence and technology divisions. David joined IQVIA from Symphony Health where he was Executive Vice President of Analytics & Innovation responsible for the development and commercialization of a suite of analytics solutions across the healthcare arena, in addition to building a strategic consulting and healthcare advisory services organization. David has also been a Partner with Accenture where he was leading Marketing Analytics in North America and the Head of Global Marketing Effectiveness and Consulting Services at IMS Health.

David graduated from Sheffield University in the UK with a Masters degree in Applied Statistics.
