

Anthony Placencio

Partner

RSM US LLP

Anthony has over 18 years of experience in public accounting. He has served both SEC registrants and private companies in various industries, including health care, life sciences and technology. Anthony primarily served a large life science SEC registrant for three years with a Big Four firm in San Francisco. He then transferred to Dallas and primarily served a large health care provider SEC registrant.

Anthony joined the Big Four firm's National Office in 2014 where he worked on various projects, including developing and leading the implementation of the updated global audit methodology and the use of advanced audit innovation technologies. After his rotation in National Office, Anthony transferred to Seattle and served a large, high-profile technology SEC registrant, where his responsibilities included implementing audit innovation and leading the early adoption of the new standard on accounting for leases (ASC 842).

Anthony joined RSM US in November 2017 to build and grow the health care practice in the Texas market with a strong focus on private equity owned portfolio companies. Anthony leverages his broad technical knowledge and experience in innovative solutions to create value for his clients. He is currently Texas Health Care Audit Leader and Fort Worth Audit Leader.
