

Gabby Everett, PhD

Director of Business Operations &
Strategy, Site Head, North Texas

BioLabs Pegasus Park

Dr. Gabby Everett is the Site Director for BioLabs Pegasus Park in Dallas, a membership-based network of shared lab and office facilities located in key biotech innovation clusters. She is an accomplished researcher, inventor, and leader in biotech.

Prior to BioLabs, Gabby was the Lead Biotechnology Scientist for NCH Corporation where she was responsible for leading the innovation team from cradle to commercialization.

Gabby has a PhD in Biochemistry from Texas A&M University. She has received multiple awards in teaching, service, presentation, and leadership. Her work has led to 50 scientific research articles, 9 granted patents, and 14 pending patents.
