

## Zachary Nelson, MBA

Texas Life Sciences Management  
Consulting Leader

**RSM US LLP**

Zachary is the Texas Life Sciences Management Consulting Leader brings over 8 years of consulting and industry expertise to RSM. Zach specializes in biopharma/MedTech organizations and has managed operations cost improvement projects, deployed industry 4.0 technologies, and coached multi-function teams through process and product re-designs.

Zach's industry experience has focused on MedTech businesses ranging from start-ups to fortune 500 companies. In these highly regulated industries, he developed a focus on lean manufacturing and operational excellence in business process improvement, supply chain optimization, and Strategic Hoshin Planning.

Zach's passion and focus is to optimize new industry 4.0 technologies and integrate both the technology and strategies into middle market life sciences companies for sustainable bottom-line results.
